of Gdańsk**

# **SCIENCE, BIOTECH AND BEYOND**

SEASON 2 EPISODE 3

## **JAIME JAMES, PHD**

### **ADVANCING CANCER IMMUNE MONITORING THROUGH DEXTRAMER REAGENTS**

*HOST: WOJTEK SIWEK*

15 NOVEMBER 2024, 10.00 AM  
ROOM 320, ICCVS, KŁADKI 24, GDAŃSK

**EVERYBODY IS WELCOME!**

**JAIME  
JAMES**

Jaime obtained her PhD from the Karolinska Institute in Sweden, where she studied T cell receptor signaling in the context of oxidative regulation. As a Technical Application Scientist at Immudex she helps customers with any questions they may have about the Dextramer® technology and its uses.

Immudex is a Danish company specialized in creating reagents for monitoring the antigen-specific immune response. Its portfolio of products is based on the unique Dextramer® technology and are used in flow cytometry, in situ staining, NGS, and single-cell multi-omics to unravel the complex interactions between T cells, B cells, antigen-presenting cells and more.
