MACIEJ
JASIŃSKI

Maciej Jasiński is the Director of Biologics at Ardigen, Cracow, PL, a biotech company with offices in Cracow, San Francisco and Boston. With over a decade of experience spanning academia and industry, Maciej specializes in AI-driven and physics-based approaches for drug development. He leads an interdisciplinary team that applies computational methods to advance biologics discovery in immunology. Maciej holds a PhD in physics from the University of Warsaw, he also completed postdoctoral training in USA and Poland. Additionally, he runs a science popularization blog – “fizykwyjasnia.pl”. In his talk Maciej will explore the current state of AI in the discovery of biological therapeutics through real-world examples and case studies from AI CRO projects.
